ISO 9001:2015

Quality Management Systems

What is ISO 9001?

ISO 9001:2015 is an international standard developed by the International Organization for Standardization (ISO) for quality management systems.

Revised in the year 2015 (hence the designation ISO 9001:2015), the intent of this ISO standard is to provide organizations with the elements of an effective Quality Management System (QMS) that can be integrated with other requirements and help organizations achieve quality assurance of product and to enhance customer satisfaction.

Quality Management System Principles

- Customer focus
- Leadership
- Engagement of people
- Process approach
- Improvement
- Evidence-based decision making
- Relationship management

Benefits of ISO 9001

- Improved performance of affected processes;
- Increased customer satisfaction levels;
- Enhanced decision-making capability through emphasis on data;
- Reduced operating costs related to waste, rework and non-value added activities;
- Demonstrated compliance with customer, regulatory and other requirements;
- Eligibility for contracts stipulating third-party (e.g., ISO 9001) certification.
